

# New Utah Public Gardens Website!

*Did you know that Utah has a variety of public gardens? These gardens span across Weber, Davis, Salt Lake, Utah and Washington County. Each garden is unique and provides different, fun, and educational opportunities to the public.*

---

## Check it Out!

The new **Utah Public Gardens website** is dedicated to providing Utahns with valuable information about each public garden. It serves as a gateway to each unique garden and offers a glimpse into the gardening culture of Utah.

You can search for public gardens in Utah by going to the **find a garden page**. More information about each garden can be found through the links to their individual websites.

To find fun and educational activities for you and your

family, visit the Utah Public Gardens website and take advantage of the great pool of information and resources.
