

NEW! Live Online Gardening Course

Caring for Succulents | Live Online Course – May 24th

Join our online course to learn all about succulents from USU Extension gardening experts Sheriden Hansen and Helen Muntz. They will teach you about the many varieties of indoor and outdoor succulents and how to care for and propagate them. They will also demonstrate how to create a unique vertical succulent planter and answer questions.

Learn How To:

- Determine what makes a plant a succulent.
- Understand common problems with succulents and how to treat them.
- Understand how to plant and care for succulents – both indoors and outdoors.

Course Instructors

Sheriden Hansen

Sheriden Hansen is the USU Extension horticulture assistant professor in Davis County. She received a bachelor's degree from USU's off-campus program in plant science in 2015 and worked as a fruit production intern at the Kaysville Extension research farm for two years. She also has a master's degree in plant science. She has multiple horticultural responsibilities, including working with the master gardener program in Davis County.

Helen Muntz

Helen Muntz is the USU Extension horticulture educator in Weber and Morgan counties, a position she has held since January 2017. Prior to this, she worked for the Cache County Extension office for 3 1/2 years. She works in the Morgan County office most Tuesdays and in the Weber County office the other four days.

How to Use Zoom

This live online course will be broadcast through Zoom. If you are having difficulty using Zoom, please refer to their online help guide, found by clicking the button below.

Please Note: We suggest downloading and learning how to use Zoom software well in advance of the Live Online Course.
